1. Building 1 is a two-story structure, comparatively new, and approximately 10 by 5 meters, with a tile roof. The office of the Commander is on the upper floor. The sleeping quarters, kitchen, mess hall, storeroom, etc., are located in the same building. In front of the building there is a small ravine and stream and behind it the ground rises to a peak, but there is a small level area where the building stands. There is no fence around the area. There is an electric light bulb on the outside of the building.
2. Building 2 is a one-story structure, old and approximately 6 by 4 meters with a slate roof. This building was formerly the customs house; at the present time it is the living quarters of the officers and their families.
3. Obekt Elidzhe - The warehouse of the Forestry Project Elidzhe, is located 250 to 300 meters from the Zastava. Almost daily, trucks come to pick up lumber and wooden mine supports. The barracks (log cabins), of the forestry workers are located about one kilometer from the warehouse.
